

Supporting the future of Southern Alberta's most important industry - Agriculture!

2027 AGRICULTURE SCHOLARSHIP UPDATE

Dear Agricultural Scholarship Program Sponsors & Friends of Agriculture,

The Organizing Committee for the Rotary Club of Lethbridge East's \$10,000 Agricultural Scholarship Program would like to update you on our advance planning for the 2027 Agriculture Scholarship Program and Gala Event. We would also like to confirm our ongoing commitment to assist in the development of future agricultural leaders within Southern Alberta. We continue to be simply amazed at the quality of our past recipients. Their ongoing contributions to agriculture in Southern Alberta are many and growing.

Over the past eight years, we have awarded twenty-one \$10,000 scholarships - a total of \$210,000 - to Southern Alberta's top agricultural students. These funds allow students to complete their studies with less financial indebtedness and to attend agricultural events and courses they may not otherwise have been able to afford. These \$10,000 scholarships are the largest agriculture-related scholarships in Canada, reflecting the significance of agriculture to the Southern Alberta economy. This year, it is also our intent to again sponsor high school students' participation in agricultural educational programs.

We are deeply grateful for your past support - as sponsors, silent auction contributors, Gala attendees, and purchasers of live and silent auction items and 50/50 draw tickets. We couldn't do this without your continued generous, active participation.

2027 SCHOLARSHIP GALA EVENT | Thursday, March 4, 2027 Coast Lethbridge Hotel & Conference Centre

Again this year, attendees will be treated to the renowned cuisine of Sky & Table. In 2027, we expect to award four \$10,000 Agricultural Scholarships to tomorrow's agricultural leaders.

We invite you to continue your support this year by becoming a sponsor, making a donation, contributing to the auction, or joining us at the Gala. Your support directly helps develop the next generation of Southern Alberta agricultural leaders.
